11 EX-OFFICIALS FOUND GUILTY IN ATLANTA GRAFT

Six Sentenced to Chain Month Crusade - Nine Others to Be Tried.

By the Associated Press.
ATLANTA, Ga., April 20.— Eleven former city officials and the business partner of one of them stood convicted today of various charges of municipal graft as result of a 17-month-old crusade conducted by the Fulton County Solicitor-General.

Preparations are under way to try nine other former municipal officers on similar charges, and to press additional cases against some of those already convicted. Five other citizens likewise face various graft charges.

Of the 12 convicted, six are under sentence of both fines and chain-gang terms, but so far only former Councilman Harry York and his business associate, Jack White, are actually serving sentences, each of five years. Six of the convicted were sentenced to pay fines ranging from \$250 to \$1000 or chain-gang terms.

There have been six acquittals and one nolle prosse The allegations of municipal graft have centered chiefly around Walter C. Taylor, former City Clerk, who is appealing the chaingang sentences of three years and \$2000 fines on convictions of bribery. Of those convicted seven were Councilmen or Aldermen and the testimony of the State alleged they

P. S. Co. Head Explains 10 Per Cent Wage Cut Proposal—Employes Demand That Notice Be Withdrawn.

The Public Service Co., in a letter to employes, has suggested a 10 per cent wage reduction, contingent upon earnings, for a period of six months. The carmen's union, notified that its wage contract would be terminated May 19, made written reply in opposition to wage reductions.

The text of the street car com- ruary and full 100 per cent in pany's letter to its employes fol-March. There are other things the

Dear Employe: I am writing you to inform you fully and accurately of the facts regarding the notice our company has sent to the officers of its union employes with respect to wages, because all employes, whether they belong to the union or not, are affected.

The plan simply is this: It applies to myself and all other officers, as well as you. Present working conditions and scale of wages will be continued, except that 10 per cent of wages of all of us each month will be dependent upon whether the company has enough money to pay the 10 per cent after meet-

ing its interest on indebtedness. Ninety per cent of wages at the present rate will be paid each pay day. As soon as possible after the end of the month. auditors will determine how much is left after meeting interest. If this remainder is equivalent to 5 per cent wages, then employes will receive the 5 per cent, in addition to the 90 per cent they already have received. If 10 per cent remains, employes will receive the 10 per cent. Whatever portion of this 10 per cent is earned, the employes will get every dollar.

In any event, stockholders will receive nothing in any month until wages of employes have been met 100 per cent for that month Moreover, an outside, reputable firm of certified accountants will be employed to determine just how much does remain toward payment of a 100 per

What is this interest on indebtedness and why is it so important that it must be paid? It is simple to understand. Suppose that Motorman Bill Smith and Conductor John Jones should buy a grocery, paying \$6000 for it. They invest \$3000 of their own savings and borrow \$3000, giving a mortgage on the store.

Suppose business is not so good for awhile. Suppose it is so bad that Bill and John earn nothing on the \$3000 they invested. But, however bad business may be, Bill and John know good and well that they must pay the interest on that mortgage or else -well, the man who loaned them the \$3000 just takes the store and Bill and John lose the whole shootin'-match, including the \$3000 of their own. It is just the same with our

company. The stockholders of our company, the Bills and Johns, are receiving nothing on what they invested and we are having a hard time collecting on the mortgage. If we don't pay -well, we are in the same pre dicament as Bill and John-we are bankrupt.

During the first three months of 1931 we have not collected enough fares to pay interest. We have cut expenses to the bone and still there is not enough to pay interest.

It is too bad that we cannot assure employes that they will get 100 per cent of their wage at present rates, but that interest must be paid. Still, there is a saving feature. We all know that the cost of living has come down any month receive more than 90 per cent of our present wageand it is unlikely that business will get that bad-we still will have as much buying power as a year ago because prices have come down.

Suppose I give you a concrete example of the plan. If it had been in effect during the first three months of this year, employes would have received 951/2 per cent of their present wage in January, 90 per cent in Feb-

WORLD FAIR ART SAVED

Fee on Objects Exhibited Here in 1904.

A reproduction of the marble interior of a Turkish palace and a collection of Oriental art objects which were shown at the World's Fair in St. Louis in 1904 were saved from the auction block for the third time today as they were about to be sold for storage charges. They have been gathering dust in a warehouse.

General Warehouse Co. had advertised that the objects would be sold tomorrow to the highest bid-der, but today the owner, Morico Benguiat, a New York art dealer, telegraphed a payment on the storage charges and the sale was called off. Twice before Benguiat has halted sale of the collection by last-minute action.

The warehouse company was not ontimistic about the prospect for a Turkish palaces has been rather light recently and the company knew of no dealers who were planning to bid.

Benguiat, who with his father, Hadji Ephraim Benguiat, sponsored the exhibition of the palace and the art collection at the fair, told officers of the warehouse company when the auction was first proposed two years ago that the value of the exhibit ran well into six figures.

The collection includes interior decorations, casements, doors, furniture, firearms, swords, utensils and costumes. There are rugs, paintings and articles of Oriental craftsmanship in bronze, copper and precious metals.

in jail and the penitentiary in con-nection with the robbery charge and the Circuit Attorney's office calculated that this was the equivalent of time he would actually serve under a five-year sentence. Accordingly, the prosecutor was willing to agree to a sentence of only five years under the plea of guilty. Schneider previously has been convicted of three felonies.

Edward Taylor and Joseph uschman also were convicted of the tannery robbery and got life terms under the habitual offender law. O'Dell Slattery, a Negro working in a blacksmith shop near the tannery, was the principal wit-ness against Taylor. He was kid-naped and killed before the others were tried, but his testimony taken in a preliminary hearing was read at the trials of Schneider and

Fred Meyer, Watchman, Hit in Street-Boy, 5, Struck When Car Jumps Curb of Vacant Lot.

THIRD VICTIM RIDING ON RUNNING BOARD

He Is Crushed in Collision -Six Young Persons Hurt When Two Machines Crash Into Cafe.

Fred Meyer, 54 years old, a licensed watchman, died at St. Anthony's Hospital last midnight of a fractured skull suffered several hours earlier when he was struck by an automobile at Kingshighway and Gravois avenue.

Meyer was crossing Gravois avenue and stepped in the path of a machine driven by Elmer Luehr-mann, 3442 Iowa avenue. Luehrmann, who furnished bond pending an inquest, told police he made a boulevard stop and was just starting up when his car hit the watchman. Meyer lived at 2739 Miami

Youth Killed When Riding on Running Board of Auto. Jerome Fahey, 19, 416 St. Louis avenue, Ferguson, was killed early today when riding on the running

board of an automobile which collided with another on Florissant road a mile north of St. Louis. He and his brother, Martin, had een returning to their home from St. Louis when their automobilran out of gasoline shortly after 1 o'clock this morning. Jerome Fahey hailed Tony Fresta, 5219 Elizabeth avenue, who was passing, and Fresta drove him to a filling

station a mile away. The accident occurred as they were driving back to Fahey's automobile. Fresta's car and that of Thomas Kelly, 5531 Maffitt avenue, who was driving in the opposite direction, scraped sides, crushing Fahey between them. He was taken to the office of a doctor in Ferguson and pronounced dead of internal njuries and a fractured skull.

CRAZED BY DREAM, NEGRO KILLS WIFE, SELF: THREE SHOT

Porter Rises From Bed Fires at Mate, Then Dashes to Cellar of Residence in Houston, Tex.

By the Associated Press.

HOUSTON, Tex., April 20.—
"Acting crazy" from a nightmare,
Sonny Reed, Negro porter, arose
from bed, seized a shotgun and
fired three shots at his wife, Lola,
fatally wounding her. The shooting took place in the servants'
quarters of the Louis Wagner home
in a fashionable residential district
last night. The Negro then dashed
downstairs in his nightlothes and
barricaded himself in the cellar.

The shooting attracted the attention of a card party next door.

Mrs. George Leach, the hostess; her niece, Miss Janet Arenberg, and their guest, David Harris, an attorney, were shot when they called on Reed to surrender. A single charge struck all three, Harris getting most of it in the face and chest.

and chest.

Cornered by police, Reed shot himself and submitted to arrest, but in the police automobile he seized a pistol from Detective R. H. Sullivan. Sullivan knocked down the pistol and shot his prisoner twice in the abdomen.

Reed and his wife died early today. The condition of Mrs. Leach, Miss Arenberg and Harris is said to be grave. Doctors have little hope for Harris. Justice of the Peace Overstreet

returned, a verdict of suicide in Reed's death.

Unable to account for the Negro's outbreak in any other way,

gro's outbreak in any other way, police accept a dying statement by his wife that he was subject to nightmares which left him dazed and "acting crazy."

Upon the advice of physicians, William B. Leeds Jr., wealthy sportsman, has been obliged to fore-

Write a slogan for free wheeling. \$10,000.00

Here's a contest that's going to give you the thrill of your life whether you win a prize or not. It's going to thrill you because it's going to introduce you to Free Wheeling-the most sensational advancement in automobile engineering since the

You're going to learn that there's new zest, pleasure and fascination in motoring-new-found economy and safety.

For, of course, in order to win one of the 1072 cash prizes in this \$10,000.00 Free Wheeling Slogan Contest, you will first want to go Free Wheeling. You will want to find out from actual driving experience what Free Wheeling is and what it does.

PIERCE-ARROW LINCOLN STUDEBAKER HUPMOBILE

alone offer you Free Wheeling with positive gear control

Since its introduction last July, Free Wheeling has eclipsed all the other motor car improvements of the past twenty years. It is acknowledged today as the greatest forward step since the electric starter.

electric starter.

For the first time in the history of the automobile, car momentum, hitherto wasted, is harnessed and put to work.

Every time you take your foot off the throttle in a conventional car your motor fights your car. Your motor should pull the car, and not be pushed by it.

The instant you lift your foot from the throttle of a Free Wheeling Pierce-Arrow, Lincoln, Studebaker or Hupmobile, the engine drops to idling speed but the car glides smoothly aheadpropelled by momentum without engine drag.

You ride on momentum but the car is always in gear and under complete control. You travel five speedometer miles for four engine miles—save 15% to 20% on gasoline and oil. Chassis strain is cut down-repair costs are reduced. No other car is so easy to drive as a Free Wheeling Pierce-Arrow, Lincoln, Studebaker or Hupmobile. There is less to do and less to worry about.

You shift back and forth between high and second—even when traveling rapidly—without touching the clutch. The full braking power of your engine can be utilized even more readily than in a conventional car.

You are safer with Free Wheeling. Traffic officials from one end of the country to the other have tested Free Wheeling with positive gear control and pronounce it a new measure of safety to driver and public.

Even if you are only thinking about a new car, remember that Free Wheeling owns the future. Look ahead. Ask yourself: How new is any "new car" without Free Wheeling? How much will it re-sell for a year or two from now?

Don't miss this opportunity of learning all about Free Wheeling—the sensational improvement that is making every car of the old order out of date.

PROMOTERS ON TRIAL FOR REALTY FRAUD

George O. Starkey, promoters of overtime employment. the Northwest Investment Co., on charges of using the mails to defraud in connection with the sale of lots in a subdivision north of St. Louis, known as Hall's Ferry Heights, was begun today before a jury in Federal Judge Davis' court.

Gray and Starkey are charged in indictments with representing to prospective purchasers that they would furnish chickens and sell the eggs to take care of deferred pay-ments. It was charged also that they did not own the property but had only an option on it which they had not exercised.

Mrs. Emma McFall, a widow, of Alton, testified she bought three lots in the subdivision, making a payment of \$2010, after the pro-moters took her to inspect the property in a motorbus and explained that they would furnish 100 chickens for each lot. She was told, she said, that the sale of eggs would bring her \$20 a month in addition to taking care of deferred payments on the property. She be-came interested in the subdivision, she said, through an advertisement in July, 1929. Upon answering the advertisement, she related, she was asked to a meeting in Alton, at which Starkey spoke in glowing terms of the subdivision.

Neighbors testified they had seen the claimant living at Strickland's home, where she cleaned house, did laundry work and washed automobiles. One said she saw Mrs. Strickland shave the grocer and heard him explain at the conclusion of the operation:

"Mama sure is good to me."
According to Mrs. Strickland's lawyer, a civil marriage ceremony was entered into in 1915, when she thought Strickland's first wife was dead, but that three years later he told her, "My wife just died in the State Asylum at Fulton." Strickland left the bulk of the estate to a niece, Mrs. Samuel Ludwig, 4527 Clayton avenue. A will contest filed by six other nieces

BELGIAN PRIEST SLAIN BY CHINESE BANDITS

Two American Missionaries Ransomed - One Held Since Last October.

By the Associated Press. HANKOK, China, April 20. Missionary advices from Ichang confirm the news of the murder of the Rev. Maryn Acons. Belgian Franciscan priest, who was cap-tured when Communist bandits ravaged the town of Patung.

Hupeh province, April 4.

The advices say Father Aeons was slain on the day of his capture. Missionaries at Ichang are attempting to recover his body but the reports say the Communists have refused to release it for

reds have occupied Patung again after driving out the feeble provincial military garriso Ransom demanded by captors of two American missionaries held by bandits or Communists of Central China has been paid and the mis-

The two men released are the Rev. K. N. Tvedt of St. Paul, Lutheran United Mission mission-ary, held captive by Chinese Communists near Hwangan, Northern Hupen, since last Oct. 17, and the Rev. Allie Godfrey Lindholm of Ortonville, Minn., of the Scandimavian Alliance Mission at Kalgan, captured by bandits last Thursday.

sionaries have been released.

A ransom of \$10,000 Mexican and \$5000 worth of medical supplies was paid for the release of Tvedt, who arrived here today from Sunfow. He showed the physical effects of his ordeal. Tvedt said Bert Nelson, another Lutheran missionary, who was capture dat Kwangshan, Hohan, last Oct. 5, was being held at Red headquar-ters in Hwangan. Tvedt quoted the outlaws as saying Nelson would be released on payment of \$10,000. Frank P. Lockhart, United States Consul General at Hankow, today advised the Peiping Legation that Miss Esther Nordlund of Chicago, Miss August Nelson and the Rev. Oscar Anderson, presumed to be Swedish, and all belonging to the Swedish Covenant Mission, were captured by bandits at Kingchow.

Hupeh, April 17 It is a standing rule that missions do not ransom their reprein the cases of Tvedt and Nelson at request of American officials who had reports that they were being tortured. Repeated representations at the Nanking Government for the release of the two men were unavailing, the Governnent being unable to break up the

THE Olympic Games authorities are getting all stewed

The orficial title proposed was: "The Xth Olympiad Games," an expression which stepped on the rules of syntax and other things everely. The fact is that Olympiad is a noun and not an edjective, as a professor of English at Princeton pointed out. It was suggested that a more correct expression would be "The Games of the Xth Olym-

But here enters the historian with a question of fact. Is it the tenth Olympiad? Let us see. An Olympiad is "a four-year period between two successive celebrations of Olympic Games, according to the dictionary and

But there have been only NINE intervals or Olympiads since the Olympic revivals began in 1896 and the periods of these ntervals have been most irregular, and therefore not strictly 'Olympiads." For example, in a space of five years THREE Olympic Games celebrations were held namely, in 1904, 1906 and 1908.

On another occasion the Olympiad was stretched into eight years, by the World War, there being no contests between 1912 and 1920. Which kicks the true meaning

of Olympiad right in the slack; it also makes us doubt whether we have any right whatever, technically speaking, to apply the word Olympiad to the

This seemed to open the way for the operation of new tracks and a consequent wide increase in greyhound racing everywhere. Conservative persons connected with the game expressed the view that the decision would merely serve to free from the threat of damage suits those "outlaw" tracks that already had been in operation.

MISS MADISON GAINS 3 U.S.

By the Associated Press. NEW YORK, April 20.—The women's swimming association of New York captured team honors in the 1931 National Women's Swimming Championships, but it remained for the Seattle star, Helene Madison, to furnish most of the excitement of a somewhat disappointing aquatic tournament.

Miss Madison captured three individual titles during the four-day carnival and almost single-handed enabled the Washington A. C. of Seattle to finish second in the team race with 27 points. The W. S. Dried-out cigarettes are cruel to your throat

EVER TRY to smoke one of those crumbly cigarettes you sometimes find hidden away in last year's suit?

Remember how harsh and hot its smoke was to your throat; how it choked you and made you cough?

That's what happens when evaporation robs a cigarette of its natural moisture content. And most cigarettes lose their moisture and flavor quickly from the day they leave their factory.

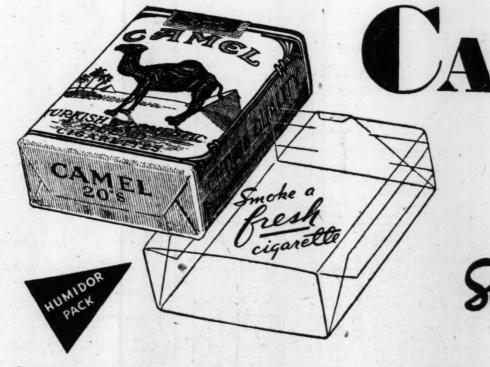

Not so with Camels.

The Camel Humidor Pack not only keeps the natural moisture and flavor in; it keeps out all foreign influences which destroy fresh cigarette enjoyment.

An air-sealed wrapping of moisture-proof Cellophane, called the Humidor Pack, keeps Camels always in mild, factory-fresh condition. That's why they are so delightfully easy on the throat.

Switch to Camels, now, for just a day, then quit them tomorrow-if you can.

Plan Proposed at Annual Conference Is Increased Use of Galvanized Materials.

The American Zinc Institute, composed of miners, smelters and fabricators of zinc, opened its three-day annual meeting today at Hotel Statler and began consideration of two problems facing the in-

The first of these is the improve ment of the product through the establishment of a marked standard for galvanized sheets contain ing more than 1.75 punces of zinc per square foot of steel. Such a standard, similar to one adopted by Canadian manufacturers, would insure the purchaser of definite and retary of the institute, said.

The second problem is the widening of the market by promoting the use of galvanized materials. Galvanizing represents the process of coating iron or steel with zinc. When the institute was organized in 1918, the zinc industry was booming, but production today is about 50 per cent of normal, Con-

Establishment of a definite standard for galvanized roofing, Conover said, would enable the urchaser to tell by the stamp the ercentage of the zinc coating, naking it possible for him to obtain roofing that would guarantee satisfactory service. Zinc is used also in the manufacture of brass, in automobile hardware, and in die casting, he said.

Through contributions of its members, the institute plans to obtain an income of about \$75,000 for the improvement of galvanized productions and the promotion of their consumption, Conover said. About 100 delegates are participating in the meeting, about 40 of whom are from the Joplin area.

Charles T. Orr of Joplin, past president of the institute, called the meeting to order. The afternoon session was directed by Ralph M. Roosevelt of New York, president of the organization. Edward J. Mehren, vice president of the McGraw-Hill Publish-

Kuhs May Be Chosen Vice-President - Walter Weisenburger to Speak.

When the Board of Aldermen onvenes tomorrow to open the 1931-32 legislative session, Alderman Edward Kuhs of the First Ward may be elected vice president of the board to succeed Alderman Charles A. Neumann of the Twelfth Ward. This position is filled by the board itself, although the president is elected by the people. The vice president presides in the president's absence and occasionally is Acting Mayor when the Mayor and the president are out of town.

The Inaugural Committee of the board, headed by Alderman Studt, completed plans today for tomorrow's ceremony, at which President Neun and the 14 Aldermenelect from the even-numbered wards will take the oath of office. Neun will enter his third consecutive four-year term in the chair.

Kuhs is likely to be chosen tem porary chairman when the board assembles. The Rev. Dr. John S. Bunting, rector of the Episcopal Church of the Ascension, will de liver the invocation, temporary officers and employes of the board will be chosen, and Walter B. Weisenburger, president of the Chamber of Commerce, will deliver an address.

City Register Grosse will admin ister the oath of office to the 15 members elected early this month then Neun will speak. Next, the customary formality of sending a committee to notify Mayor Miller that the session has convened will be observed and the Mayor will

Following this, permanent officers and employes will be elected. It is thought possible that Neu-mann may nominate Kuhs, rather than oppose him. Edgard S. Nic-olai, clerk of the board, and other members of the staff, it is expected, will be reappointed.

The board is pledged to seek remedy for transportation problems and President Neun has promised to appoint a committee to study the system of special taxes for public improvements, to see if something can be done to obviate objections that have arisen from some property owners. new members who will take their seats are William Hayes, Second; P. A LESSON from the Estate of Nicholas Longworth

WO MILLION Dollars needlessly wasted. Such is the unfortunate story disclosed by the recent probating of the will of Nicholas Longworth, late speaker of the House of Representatives.

Mr. Longworth left his entire estate to his wife. His estate is estimated to exceed \$16,000,000.00. The Federal Estate Tax alone will approximate \$2,500,000.00.

This same estate will again be taxed upon Mrs. Longworth's death (if she survives him by five years or more). This second tax is unnecessary.

Had Mr. Longworth left his estate in trust, under his will, there would be no second tax. The net saving to his family would amount to about \$2,000,000.00.

Estate shrinkage can be minimized by careful planning. This institution specializes in preparing plans to save preventable shrinkage.

IN THE BASEMENT OF THE THIEVES' MARKET.

Is California Civilized?

With pleasant climate and friendly people, California yet exhibits social barbarism; intolerant reaction against Asiatics, called a race problem, is really a labor question; exploitation of workers shown by fate of radicals who protest against it; civilization of State is based on power of the ruling class over its virtual slaves.

Robert Whitaker in the Nation.

OR more than four decades I have been privileged to live in one of the fairest and kindliest of all the regions of the California is, indeed, a marvelous land, beyond anything the passing tourist can ever know, and many of its people are among the choicest fruits of human evolu-

All this only accentuates the hewilder ment and bitter disappointment which must be felt by any thinking man at the social barbarism of California, provided he has any knowledge beyond what the pitiful public press gives of our ignorance, our intolerance and, above all, our complacent social inertia.

California's reaction to the Chinese, the Japanese, the Hindus and the Filipinos is a fourfold story of prejudice, ill governed and lawless passion, class provincialism and domination of the supposedly intellectual and moral leaders of our society by mob spirit and mercenary interests. It is hardly to be matched anywhere in America, if anywhere in the world. It is not, however, without fairly obvious explanation in certain features of our economic life which are peculiar to this semi-tropical land, just as the long continuance of slavery south of Mason and Dixon's line was due to economic conditions peculiar to that region. In both instances the exploitation of imported labor from lower levels of economic life abroad. that is, from Africa and Asia, and the consequent conflict induced by the defense development of more typically Western industrialism explain in large part the overriding of that idealism and legalism which we like to think our special claims to the consideration of mankind.

What we have called the race problem is in both instances really a labor problem, as will be quite widely admitted now. What will be much more reluctantly admitted in California is that the dominant people here are affected with the same disposition that black slavery induced in the South, and for similar reasons, and that labor here has something of the same inferiority complex which operated among the Southern whites who were in competition with slave labor.

On the higher levels of wealth control. the Californian is willing to have the Asiatic here, and to fatten on him economically with slight regard for either the imported or the native article of human brawn and On the lower levels of economic control, American labor in California reacts to the foreigner from Asia, or for that matter from Mexico, with something of the same hatred, born of fear and injury, which white labor in the South had toward the exploited black man. California's race problem is a reflex in its major features of the older and more obvious race problem of the South.

California's brutality and respectable lawlessness toward the I. W. W. and later toward the Communists are of the same character in the main. It is the dependence of the State upon migratory labor and occasional service of a semi-servile characwhich makes this Pacific paradise so ruthless in overriding decency and justice and all considerations of chyllization in its

dealings with unskilled labor and with those

who challenge the exploitation of such More than a hundred members of the I. W. W. have been sent to the California penitentiaries for considerable terms of wholly unjustifiable imprisonment, without so much as any charge of actual violence,

or even of personal advocacy of violence being registered against them. In Oakland, over a period of several years, Anita Whitney, a real Jane Addams in the dignity and beauty of her character and in the distinguished social service which she has ne, was allowed to be hounded by sleuths and officials not worthy to black her shoes. Others, who in character and social spirit and service were her peers, were thrown jail, subjected to all manner of legal and official persecution, and finally sent to the penitentiary unless they were saved from that fate by their own extraordinary

skill in defense. Anita Whitney escaped partly because of the tradition of her high social connections and imagined wealth. But on the whole the public attitude toward her was not so different from that toward the persons who were jailed in Oakland for having actively interceded in behalf of the exploited workers around San Francisco Bay. California is, industrially, a sort of seasonal slave State, and whoever touches upon this situation so as to imperil the "institution" will be railroaded to the penitentiary by any ssible means. Whoever dares say anything about it risks his living, if not his life.

Worse than the Mooney-Billings case, which belongs in the same category, is the more recent but as yet unadvertised case of Frank Spector and his fellows, sent to the San Quentin penitentiary a few months ago for terms of from three to 42 years for having attempted the industrial organization of the exploited labor of the Imperial Valley. The case has not stirred a breath of protest among the churches or in respectable circles generally. The exploitation of field labor in California in 1931 is accepted as casually and deliberately as ever African slavery was in the South: when attacked, it is as virulently and as tyrannically defended. Frank Spector I know personally, and Garrison himself was not a more unselfish, devoted or heroic man. The trial was on a level with the meanest manifestations of legalized mobbery of the antislavery agitators of a century ago. Yet the 'best people" of the Imperial Valley, as I know by more than one season of sojourning among them, are charming peop charming as the aristocracy of the South ever was. Yes, California is civilized. That is what

is the matter with it; its civilization, economically considered, is the legal, political and disciplinary ascendancy of a ruling class which lives by the exploitation of labor, and especially of unskilled labor. shows plainly how amiable and charming in personal relations the ruling class may be in in a civilization like this, which rests upon conditions of labor exploitation that cannot be changed without serious disturbance of the established order. However inhuman those conditions, then, no one may say anything about them without paying a price.

The debate topic the beginning or the end or even the High School, dealt with the question of bringing the time between the two acts about the basis of the amusement will find "Lysistrata" tremendously

The play is not dirty in the manner of the contemporary burlesque shows. Rather it might be called indecent in its frank conversation and even franker illustration of certain phases of married life which, heretofore, have been discussed only in maternity hospitals or in smoking rooms. In these days. however, when everyone smokes, in every room, there is perhaps no reason why the theater should be excluded. There are, we dare say, worthy people who would be horrified at "Lysistrata" but they have, long since, been driven from the theater anyway, and if any one walked out of the Orpheum Theater last night, before the play was finished, he, or she, escaped the no-

tice of this fairly observant critic. Mrs. Charles Coburn, a fine actress, always, is superb as Lysistrata, the Athenian wife who marshals the women of her country and the women of Sparta with a plan to end the war which has been going on for 20 years between the two nations. Her scheme, which is the plot and, indeed, the whole play, is for the women to deny themselves to their husbands when those worthies come home on furlough. The plan, except for one slight mishap-and then it was only a lover, and not a husband who was involved-works perfectly and the farce ends, happily, in a wild orgy with war entirely forgot-

The youth and beauty and sweetness of Dorothea Chard permits of one scene which, in the hands of a less innocent looking oung woman, would be difficult to get past the police or the Prosecuting Attorney anywhere and the rollicking humor of Hope Emerson, an Amazonian Spartan, is glossed over by her size and her joyous manner. The cast throughoutthere are some 60 or more speaking parts—is excellent with Bur-ford Hampden outstanding as a soldier returning from the war, hotand bothered, and Pierre Watkin splendid in the role of the doddering old President of the Athenian

The setting for the one scene for the two acts, brought on from the New York production along with the costumes by Miss Hart, is magnificent and her present season at the Orpheum will go out in a blaze of glory-and some smoke.

How can any shopper know what she is getting when she accepts untried, unadvertised products? She can't!

In appearance, these substitutes may imitate products of recognized quality.

But quality goes deeper than a pretty label!

You may be told the imitation package "holds a little more" for the money.

Often, it holds little more than disappointment!

Such substitutes are urged upon unsuspecting shoppers for just one reason.

There is more profit in selling

When a product is sold cheaper than one of recognized quality, you may be sure it is made cheaper.

Then how can it be "just as good?"

Whenever you shop, ask for these standard, advertised brands. And get them. Always be warned by the words "just as good" that there is something better.

Let the names you know guide you to constant quality. To definite purity. To honest weight. To good products that give full value in return for the money you spend!

BUTTERSCOTCH ROLLS

May Be Easily Made Out of Plain Biscuit Dough.

Delicious butterscotch rolls are made by rolling plain biscuit dough out to one-fourth inch thickness and spreading with butter and then a thick layer of soft brown sugar. Roll the dough up like a jelly roll and pinch the edges firmly to-gether. Cut down in slices one-half inch thick and place on a well-but-tered baking pan. Bake in a moderate oven—375 degrees—for 15 15 minutes. Serve hot or cold. These are good for breakfast or lunch and with a glass of milk make a splendid after-school lunch

It is very natural for people to seek congenial companionship. And to those of gentle breeding, gentle folk who are accustomed to good form in speech, knowledge of social amenities, instinctive consider-ation for the feelings of others, it is natural to feel out of place with persons of gross speech and man-

If, however, you mean by "highpowered" only those who can buy what place they achieve, whether by handsome entertainments, fine cars and lavish apparel, I should say that your pecuniary condition might prove quite a handicap. Webster defines a snob as "one who regulates his attitude toward persons, according to wealth or station." And it is put in a more picturesque and less elegant way by someone thus: "One who licks the boots of those above him and kicks his own at those below."

I understand that it would be pleasant perhaps for you to exchange social courtesies with your friends, but after all, if they are your friends these need be only of the simplest kind, but done without apology and with charm and

I believe your best chance to find congenial society is through friends, introduction or attendance and perhaps study of courses in literature, social work or art which attract a high type of people. Cooking Class

Tuesday, April 21

The modern-minded housewife uses every opportunity to learn

new ways to freshen her table and tempt family appetites. Many St. Louis women are attending the free cooking classes

held each Tuesday afternoon from 2 to 4 o'clock in the Home Service Auditorium of the Laclede Gas Building. Here they

witness the preparation of nourishing dishes that appeal to the appetite and add to the appearance of the meal. Copies of the recipes are given to every woman attending the class. Tuesday's class will be under the direction of Miss Elsa Bradley,

With Tintex Color Remover You Can Make Dark Fabrics Light!

It's so easy to give even the darkest fabrics the gay light colors so much in vogue today!

First use Tintex Color Rcmover to take out the dark color. After that you can re-tint or re-dye the fabric to suit yourself-either light or dark!

There are 33 Tintex Colors from which to choose-from pale pastels to dark gem colors.

Just ask for Tintex Color Remover and your choice of Tintex Colors at any Drug Store or Notion Counter . . . and the rest is easy!

Nervous Indigestion—IV

HAT is to be done in the case of nervous indigestion? To begin with, one must be certain that the indigestion is really of the nervous type and not due to an actual change in the struc-

ture of the digestive tract. This positive knowledge can be secured only on a competent ex-amination of the patient, which must include a complete history of the symptoms and may call for an X-ray study of the digestive tract, as well as an analysis of one or more of the digestive juices secreted.

Assuming that no organic disease has been found, what then? In substance, a compromise must be reached between the demands and limitations of the digestive functions and the demands made by the life the patient feels obliged

To make this point clear, let us assume a simple situation. Here is a patient suffering from nervous indigestion. The primary cause appears to be that he is called on to do his heaviest work, either physical or mental, toward the end of his working day, shortly before he comes home to his largest meal. Fatigue, it has been well established, interferes with indigestion.

What, then, can this patient do Brandeaux expressed his prefer- to overcome his nervous indigesence for tall girls as dancers, be- tion? Teeth Whiten Kolynos is unique.

3 Shades in 3 Days

There's no reason now why your teeth should be stained, yellow, discolored or prey to decay—why your gums should be spongy and tender. For science has discovered the way to remove the cause of 95% of all tooth and gum troubles—the millions of germs that swarm into the mouth with every breath—and make teeth gleaming white. It's called the Kolynos Dry-Brush Technique.—Start using this technique—a half-

Start using this technique—a half-inch of Kolynos on a dry brush. Over-night you'll note an improvement. In just 3 days your teeth will look whiter —fully 3 shades whiter. Gums will feel firmer and look healthjer. Breath

The very moment it enters the mouth, this highly concentrated dental cream becomes a refreshing FOAM which permits the use of a dry brush, thus making Kolynos 10 times more effective.

This penetrating FOAM gets into and cleans out every tiny pit, fissure and crevice. Kills millions of destructive mouth germs, 190 million in the first 15 seconds. Erases tartar and stimulates the gums. THUS TEETH ARE QUICKLY

Pastry-Light and Flaky--Meats **Cooked to Melting Tenderness**

... by Electrochef

FLECTRIC Cookery assures better cooking results. No luck, no guesswork is involved, no watching, waiting or tasting. Foods are cooked in their own natural juices and are more savory. There is no loss through evaporation. You can use your old methods. Electric Cookery is simple and makes meal-getting a pleasure.

Electrochef Is Fast

The oven heats to a baking temperature of 400 degrees in 8 minutes. Amazingly fast. At the snap of a switch you have intense glowing heat for broiling, roasting, baking or any kind of cooking you wish.

See Electrochef at any Union Electric Appliance store. An electric cookery specialist will gladly call at your home to tell you in detail the comfort and convenience of Electric Cookery.
